

APM Risk Management Certificates Level 1 & 2

Developing your future project managers
for tomorrow

Qualification overview

APM Risk management is a distinct and specific area within APM's Body of Knowledge and a key control function within any project or programme. APM offers Project Risk Certificates at Levels 1 and 2, which are designed for project and programme managers who are involved in project risk management at any level.

Obtaining the Level 1 certificate is sufficient for an individual to contribute effectively towards the formal process of project risk management.

The Level 2 certificate is a written examination designed to determine an individual's capability in project risk management, sufficient to allow an individual to undertake formal project risk management.

Who is this qualification for?

The APM Risk Management Certificates are for project managers, work package leads, programme managers or key project staff involved in risk management.

Pre-requisites

Level 1:

A minimum 6 months practical project experience and good basic project management skills and knowledge.

Level 2:

Level 1 Certificate or demonstratable knowledge of Level 1 syllabus.

APM Risk

Raise your project management to the next level
